PROFESSIONAL SUMMARY

Senior Flutter Developer with 5+ years of experience designing, building, and shipping production iOS and Android applications across point-of-sale/fintech, government services, real estate, and e-learning. Led a mobile team delivering enterprise apps for Saudi government and commercial clients, with multiple apps live on Google Play and the App Store. Strong in Clean Architecture, BLoC state management, offline-first design, payment and NFC integration, CI/CD automation, and Arabic/English (RTL) localization.

CORE SKILLS

Mobile: Flutter, Dart, iOS, Android, platform channels (Swift/Kotlin), responsive phone & tablet UI

Architecture: Clean Architecture, MVVM, SOLID principles, Repository Pattern, modular design

State Management: BLoC / Cubit, Riverpod, Provider, GetX

Backend & Data: REST APIs, GraphQL, WebSocket, Firebase (Auth, Firestore, FCM), Drift ORM, SQLite, Hive, offline-first sync

Quality & Delivery: Unit / widget / integration testing, CI/CD (Azure DevOps Pipelines, GitHub Actions, Fastlane), Firebase Crashlytics, Git, GitLab, App Store & Play Console releases

Specialties: Payment gateways (MyFatoorah, Stripe) & NFC, Agora RTC, biometric authentication, FCM push, deep linking, Google Maps, PDF generation, AR/EN localization & RTL

PROFESSIONAL EXPERIENCE

Senior Flutter Developer (Remote) Nov 2024 – Present

Peer for Information Technology

- Leading Flutter development on Umm Al-Loghat (أم اللغات), an Arabic language-learning platform with separate student and tutor apps: tutor discovery and booking, account & security flows, and full Arabic/English localization.
- Built the tutor earnings wallet end to end: balances, transaction history, bank-account management with IBAN (mod-97) validation, and the full withdrawal flow.
- Shipped the login and email-verification (OTP) gate with post-signup admission routing across every auth state.
- Migrated the Peers app's Android release toolchain to JDK 21 / Gradle 8 / Kotlin 2.x — repaired abandoned plugins, aligned JVM targets, and restored release builds.
- Run sprint planning on Azure Boards and mentor developers on Cubit, the repository pattern, and production standards.

Senior Flutter Developer Feb 2021 – Nov 2024

World of System & Software — Cairo, Egypt (clients in Saudi Arabia)

- Led the mobile team delivering enterprise apps for Saudi government and commercial clients — three apps live on Google Play and the App Store; ran sprint planning, task delegation, and code-quality standards.
- Rasd POS — full point-of-sale app (sales, inventory, invoicing) with NFC contactless payments, offline mode with auto-sync, and a bilingual AR/EN RTL interface. [Google Play](#) · [App Store](#)
- Chambers — Saudi government attestation platform: encrypted document upload, biometric authentication, digital signatures, multi-level approval workflows, and PDF certificates. [Google Play](#) · [App Store](#)
- Rasd Committees — meeting-management platform: scheduling, attendance, voting with audit trails, calendar integration, deep-linked notifications, and offline mode. [Google Play](#) · [App Store](#)
- Stood up automated build and test pipelines in Azure DevOps, and optimized screen-load performance by fixing rebuild storms, deferring heavy initialization, and tightening list rendering.

Mobile Developer (Remote) Sep 2020 – Feb 2021

Safqh — Saudi Arabia

- Built a Flutter real-estate app with real-time property feeds over WebSocket, a caching layer for responsiveness, offline viewing of saved properties, and a reusable widget library.

CERTIFICATIONS

- Flutter & Dart: SOLID Principles and Top Design Patterns — Udemy, 2024
- Managing State in Flutter using BLoC — Educative, 2024
- The Complete Flutter Development Guide — Udemy, 2023 · The Complete Dart Developer Guide — Udemy, 2023
- Building Flutter Screens — Coursera, 2023 · Business English — University of Washington (Coursera)

EDUCATION

B.Sc. in Pharmaceutical Sciences — Mansoura University, Egypt

Career transition to software engineering through intensive professional training and certification in Flutter, Dart, and software architecture.

LANGUAGES

Arabic — Native English — Professional Working Proficiency
